WORK EXPERIENCE

Web Developer, *Zysk Technologies Pvt Ltd*
March 2022 - Present

PROJECTS @Zysk

PushSend
PushSend is an email marketing and events marketing platform. I was the lead developer during its maintenance phase for a few months.

PlanAway
PlanAway is a trip planning application currently being developed. I am currently the lead developer for the project.

EquipMe
EquipMe Medical equipment rental e-commerce web application. My roles included backend development, and deployment of the entire application.

Zed

Zed is a ride sharing application by [Al Ghurair](#), one of the largest family business groups in the Middle East. App is currently under development. My role was working on the GraphQL API that provided real time data to the application.

OPEN SOURCE

Nauka

[Nauka](#) was one of the earlier [nostr](#) relays, written using NestJs (NodeJs framework that uses TypeScript). It was archived when I couldn't maintain it any more.
